

Conference Purpose Statement

To empower people living with Parkinson's by providing an opportunity for social interaction, education and community support.

Conference Schedule

Featured Speaker on Friday Finding Ways to Slow PD Progression

Dr. Karl Kieburz MD, MPH
University of Rochester Medical Center (New York)

Dr. Kieburz is Professor of Neurology, Community and Preventive Medicine, Environmental Medicine and the Director of the Center for Human Experimental Therapeutics at the University of Rochester Medical Center. His primary clinical and research interests are neurodegenerative diseases affecting the basal ganglia, particularly Parkinson disease, Huntington disease, and HIV related neurologic disorders. He is the principal investigator for the NINDS sponsored trials of neuroprotective agents for PD (NET-PD) and currently chairs the Executive Committee of the Parkinson Study Group.

Featured Speaker on Saturday Dream! Act! Live!

Todd Bischoff MS, CCLS

Todd Bischoff has had many dreams come true, such as owning three different successful businesses, being an athlete, actor, and radio personality, and working with many children, most recently as a Certified Child Life Specialist in the hospital setting with the pediatric oncology population. Todd currently resides in Southern California with his wife and dog, and finds joy in speaking, teaching, music, hockey, and photography. Today, he is an International Speaker who shares advice and wisdom from his life experiences in order to inspire and motivate others to overcome their personal challenges. Currently battling Young-Onset Parkinson Disease, Todd continues to share his message of hope and determination wherever he can.
